Winter Lawn Tips for Florida Lawns

Overseed: Consider overseeding with winter friendly grasses. The cold weather grass will keep your lawn healthy during the winter, but die off in time for summer when it'll be replaced by your warm weather grass again!

Mow Your Lawn: During the winter months, you should continue to mow your lawn regularly while leaving clippings on the grass. The clippings act as a natural fertilizer and help keep weeds at bay. You should also reduce the blade height of your mower when cutting in order to prevent scalping and other damage to the lawn from cold weather conditions.

Water less frequently: Set your irrigation system to water once a week during the winter. Overwatering can make your lawn more vulnerable to pests and fungal diseases.

PLEASE BE MINDFUL OF YOUR
SPEED WHEN ENTERING THE
COMMUNITY. ALL DRIVERS
SHOULD BE RESPONSIBLE AND
DRIVE SLOW, BEING EXTRA AWARE
OF KIDS PLAYING AND
HOMEOWNERS WALKING THEIR
DOGS.

**Register
your
alarm**

JSO receives more than
45,000 alarm calls each
year and more than
98% of them are false

alarms. To reduce the false alarm rate in Jacksonville, a new alarm registration program was implemented in May 2017. One key element in reducing false alarm calls for police comes from having current contact information that alarm users update each year. All residential and business alarms must be registered in the new system by the owner to avoid penalties. **Register Your Alarm** at www.jaxsheriff.org - JaxSheriff.org
