

Gaining Access to the Mallard Cove Camera System

Download the RxCamView app from the Apple or Play store.

Open the app

Click "Allow" on the Privacy Policy question

Join the "User Experience Program" if desired

Click the plus sign (+) in top right corner of the app on the Device Manager line

Select "IPC/NVR/DVR" on the drop-down menu

Click "Allow" for "Allow RxcamView to take pictures and record video" question

Enter:

IP Address/ID: 2GGHNKP775E4CE48111A

Client Port: 8000

User Name: mcuser

Password: mallardc123!

Double check your entries to ensure it matches the data above!

Click "Save"

Click "Ok"

You should see a "**connected**" message if everything was entered properly.

Click the back arrow at the top left of the display. This should bring you to the main viewing window.

Click "Ok" after viewing the help message

Click on the little window icon at the bottom of the screen

Click on one of the open windows at the top of the screen

Click on the camera you want to assign to that window. The camera name denotes where they are pointing. The license plate camera has LPR at the end.

You can drag and drop a camera window to a different window if desired

To View Recorded Video

Click the "Film/arrow" icon on the right, under the video windows

Click "Ok" after the help window displays

Double-click the camera window you want to review.

Adjust the time slider on the bottom of the display to select the video time to review

Use the forward/backward arrows to adjust the replay speed, etc.

You can save video or snapshots to your device.

The user interface is not real user friendly, but you can eventually figure it out.
